

Innovation

KIPO fosters IP Innovation through fast services with reliable quality.

Creative ideas have the power to change the world. KIPO continues to provide timely, accurate, innovative IP examination services to ensure that ideas are adequately protected as IPR.

Premium Examination Services

KIPO continually aims to provide high-quality, customer-oriented, and fast examination services by raising the quality of IP administration, improving examination systems, and reducing first office action pendency.

In 2021, the average first office action pendency was 12.2 months for patents and utility models, 10.8 months for trademarks, and 5.2 months for industrial designs.

To provide timely registration of rights and accommodate the IP strategies of our users, patent and utility model examinations have three tracks: regular examination, accelerated examination, and customer-deferred examination. Trademark and industrial design examinations have two tracks: regular examination and accelerated examination.

◀ Future Technology and Children

Artificial intelligence robots are already deeply embedded in our lives. It is very important for children to experience future technology.

▶ Golden Royal Seal for the King Sejong

King Sejong the Great was the fourth king of Joseon. He invented Hangeul, the world's most scientific script. This seal was made in 1450, the year of King Sejong's death.

Competitiveness

KIPO increases its IP competitiveness by maintaining the highest number of resident patent applications per both GDP and population.

In this era of creative economies, IPRs are the core of competent business strategies. KIPO is dedicated to establishing a competitive and rewarding IP system by transforming novel ideas into strong IPRs.

IP Competitiveness

Top Global Ranking

According to WIPO's World IP Indicator unveiled in November 2021, the ROK ranks 1st worldwide for having the highest number of national patent and industrial design applications per PPP\$ GDP.

IPR Applications

In 2021, we received a preliminary total of 592,615 applications filing for patents, utility models, industrial designs, and trademarks. Out of that number, 87,010 applications were filed by non-residents.

PCT Applications

The number of PCT applications from the ROK has continually grown every year. We have the 4th largest amount of PCT applications by country of origin. There were 20,678 PCT applications in total for 2021 which is a 3.2% increase from 20,044 applications in 2020. The Korean language is also the 4th most commonly used language as an official PCT publication language.

◀Nuriho

With the successful launch of the Nuriho on June 21, 2022, Korea became the seventh country in the world to launch a practical satellite.

▶The Seal of an Emperor

This is the seal of King Gojong, the 26th king of the Joseon Dynasty and the first emperor of the Korean Empire. Emperor Gojong declared that Joseon was a sovereign state and made a national seal.

Harmonization

KIPO collaborates with key national allies to create a global community that appropriately values and rewards inventions.

Cooperation is fundamental to creating an environment where IPRs are promptly acquired and firmly protected for stakeholders. KIPO engages in activities that advance the global IP systems as it works to increase the value of IP.

Worldwide IP Collaboration

Global Cooperation Forums

Taking on the role as one of the world's leading IP offices, KIPO engages in cooperation forums with other leading IP offices that contribute to harmonizing global IP systems, such as the IP5 for patents, the TM5 for trademarks, and the ID5 for industrial designs.

Patent Prosecution Highway (PPH) with 36 Countries & Regions

KIPO works with countries around the world under the PPH for reducing the time and costs required to obtain patent rights overseas. As of 2021, the PPH has been implemented with 36 countries & regions.

- PPH participants: Australia, Austria, Brazil, Canada, Chile, China, Colombia, Denmark, Eurasia, European Patent Office, Estonia, Finland, Germany, Hungary, Iceland, Israel, Japan, Malaysia, Mexico, New Zealand, Nordic Patent Institute, Norway, Peru, Philippines, Poland, Portugal, Russia, Saudi Arabia, Singapore, Spain, Sweden, Taiwan, UK, USA, Vietnam and Visegrad Patent Institute.

63 IP-Sharing Projects

KIPO implements IP-Sharing projects to share our gained knowledge of rapid development and to help bridge the IP divide among developed and developing countries. These projects aim to help create cost efficient and sustainable appropriate technology and brand development for improving the quality of life and income of local communities.

WIPO Korea Funds-In-Trust (FIT)

Jointly undertaken in collaboration with KIPO and WIPO, the WIPO Korea FIT is applied towards projects that support developing countries and strengthen the global IP system through economic, social, and cultural development. For the continued operation of the WIPO Korea FIT, the ROK has contributed about 13.6 million Swiss francs in total since 2004.

◀ Cheongsachorong
"Cheongsachorong" is a traditional Korean lantern with a red-and-blue silk shade.

▶ The seal of the Princess Deokon
This is the seal of Princess Deokon (1822-1844), the third daughter of Sunjo (1790-1834) and Queen Sunwon (1789-1857). It is shaped like a lion facing the front with its front legs up.
